MAXIEM 2060 JetMachining Center

The next generation MAXIEM® 2060 JetMachining® Center sets a new standard for abrasive waterjet machining. Faster, smoother, and more precise, the MAXIEM 2060 is ideal for a wide range of modern large format machining needs. The exclusive advanced Intelli-TRAX® digital linear encoder provides one-micron resolution instant feedback to the motor control system so the machine knows precisely where the cutting head is at all times. The mobile control station with widescreen display provides flexibility in controller positioning. Optional accessories such as the A-Jet® for 5-axis cutting and taper compensation and Intelli-VISOR EX for expanded system monitoring expand your JetMachining capabilities and dramatically improve production.
